EDUCATION

BUT SCIENCE DES DONNEES (SD)

IUT de Paris – Rives de Seine, Université Paris Cité,
France

September 2023 – Present

- Reporting, Statistical programming, Linear algebra, Communication ...

Baccalauréat Général

Lycée Fustel des Coulanges, Massy, France

June 2023

- Majors: Mathematics, Physics–Chemistry
- Grade: Mention Assez Bien

TECHNICAL SKILLS

Data Analysis & Statistics

- Descriptive and inferential statistics
- Regression models and correlation analysis
- Time series analysis and forecasting
- Data interpretation and clear communication of results

Data Processing & Visualization

- Data cleaning, transformation, and validation (ETL)
- Python (pandas, matplotlib)
- R and SAS for statistical analysis
- Dashboards and reporting: Power BI, Tableau, Excel (Pivot Tables, Power Query, DAX)

Databases & Programming

- SQL: SELECT, JOIN, subqueries, relational schemas
- Relational database querying and data extraction
- VBA
- GitHub version control
- Fundamentals of cloud computing (Microsoft Azure)

PROFIL

Second-year student in a University Bachelor of Technology (B.U.T.) specializing in Data Science and Statistics. Strong foundations in data cleaning, statistical analysis, data visualization, and database querying using Python, SQL, R, and Business Intelligence tools. Seeking a three-month internship to apply analytical and technical skills to produce structured, reliable, and actionable insights, and to support data-driven decision-making in a professional environment.

LANGUAGES

- French: Native
- Arabic: Native
- English: B2
- Spanish: A2

ACADEMIC PROJECTS

Data Analyst – Rental Shop Management Project (2025) - 1 Month

Academic Project, IUT de Paris – Rives de Seine

- Cleaned and structured a complex transactional dataset to improve consistency and usability
- Executed advanced SQL queries (multi-table joins, subqueries) to extract key sales and inventory indicators
- Built interactive dashboards using Excel Pivot Tables to analyze monthly trends
- Identified performance patterns and delivered data-driven recommendations for inventory management
- Group work with 4 students

Statistical Survey – Culture Pole Study (2024-2025) - 3 Month

Academic Project, IUT de Paris – Rives de Seine

- Designed and distributed a questionnaire using LimeSurvey (online and on-campus collection)
- Processed and cleaned survey data using Excel statistical tools
- Conducted descriptive statistical analysis
- Contributed to a concise report with clear visualizations for non-specialist stakeholders
- Group work with 5 students

Regression Analysis Study (2025) - 1 Month

Academic Project, IUT de Paris – Rives de Seine

- Prepared and cleaned datasets, including outlier detection and correction
- Visualized relationships using scatter plots and correlation matrices
- Built and compared regression models to improve predictive relevance
- Interpreted results and communicated conclusions clearly
- Group work with 2 students

PROFIL

I practice judo, which has helped me develop discipline, focus, and respect for collective rules. I enjoy hands-on technical activities and practical problem-solving.
